Application for Declaration by Services Sydney - Draft Recommendation

Dear Sir/Madam,

I welcome your draft decision recognizing that Sydney Water's current monopoly disposing of wastewater via ocean outfalls should be subject to competition.

I support the concept of capturing wastewater before discharge and treating/recycling it. Great environmental and water saving benefits are likely by doing so.

Any future contract should identify problems and allow adequate safeguards of public funds.

I request that you consider a longer declaration period than 15 years. I understand that Services Sydney's has requested 50 years.

Yours sincerely,  
Peter Hopper  
Manly NSW
