Subject: Services Sydney Project

To whom it may concern

I would like to voice my support for the Services Sydney application for declaration of Sydney sewerage network. I feel that Services Sydney's proposal is a significant step for alleviation of Sydney's water shortages and the environmental issues associated with the current practice of dumping approximately 50 tons a day of sewerage into the ocean from North Head alone. Please re-consider the declaration period of 15 years - a project of this magnitude needs a much longer period of certainty to recover costs and to make it a viable proposition for Services Sydney.

Kind regards,

Cynthia Vavasour
