Dear Ms Naylor

Application for Revocation of Coverage of the Wagga Wagga Natural Gas Distribution Network

Simply Energy welcomes the opportunity to comment on the Draft Recommendation of the National Competition Council. We are members of the Energy Retailers' Association of Australia (ERAA) and support the submission that the ERAA has made in response to the Draft Recommendation.

We strongly support the continued coverage of the Wagga Wagga Gas Distribution Network. Continued coverage is in the public interest because it is important for promoting effective competition in the retail gas markets serviced by that network.

You can contact me on 03 8807 1132 should you wish to discuss the review with me.
